

INSPECTION REPORT

Bhutan is a tiny and remote kingdom nestling in the Himalayas between its powerful neighbours, India and China.

Almost completely cut off for centuries, it has tried to let in some aspects of the outside world while fiercely guarding its ancient traditions. The Bhutanese name for Bhutan, Druk Yul, means "Land of the Thunder Dragon" and it only began to open up to outsiders in the 1970s.

The remote Himalayan Kingdom of Bhutan is well known for its untouched wilderness, rich Buddhist culture and a history steeped in mystic and legend. Cultural journey encompasses all that Bhutan has to offer taking in the 'must see' highlights of both western and central Bhutan. The picturesque Paro Valley, home to the Tigers Nest (Taktsang) monastery, before you drive across the dramatic Dochu La into central Bhutan, to Bumthang. It is widely regarded that Bhutanese Buddhism first took hold here and the legacies are the many ancient and magnificent monasteries in and around the area.
