

REPORT 11th EBPF EUROPEAN BODYBUILDING AND PHYSIQUE SPORTS CHAMPIONSHIPS 10th – 12th JUNE 2022, Telfs, Tyrol, AUSTRIA

The 11th EBPF European Bodybuilding and Physique Sports Championships were successfully held in Telfs/Tyrol/Austria from 10th – 12th June 2022.

After a 2 years lay-off caused by the Corona pandemic the Austrian Federation was proud and honored to host the European Championships again after having already organized the 1st edition of the European Championships under the WBPF umbrella 2010 in Vienna.

Due to the horrible war in Ukraine and the current economic crisis Europe has to cope with there were only a few European countries who were able to bring teams to these Championships and therefor the total number of participating countries and athletes were quite disappointing:

Only 5 countries (Italy, France, Hungary, Ukraine, Austria) and 37 athletes participated in the EC 2022 and that was by far the lowest number ever.

Though Ukraine was brutally attacked by the Russian Federation they still managed to send 2 female athletes to the EC and one of them – Alexandra SHIPOVICH - won the overall Model Physique title.

The overall men`s bodybuilding winner was Nebojsa (Nebo) Gojkovic, who brought a complete package of decent size, excellent symetry and good definition to the competition.

The Team Championship Award went to the host country Austria, 2nd place went to Hungary and 3rd place to Italy.

Women`s Model Physique European Champion Alexandra SHIPOVICH (Ukraine) and EBPB President Axel Bauer

EBPF President Axel Bauer and his wife Irene flanking the European Champion Georg FUCHS (Men`s Sport Physique)
